

Rakshak - Automated Unmanned Railway Level Crossing Controller

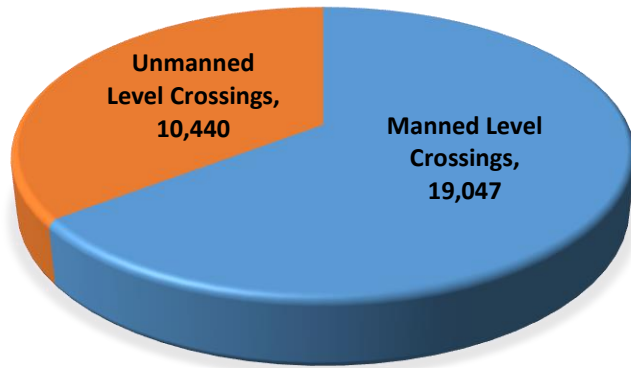

- Amit Krishna A

Objective

- Eliminate the accidents occurring at unmanned railway level crossings with the use of modern communication and automation technology
- Provide a cost effective solution
- Avoid manual errors: Radio Frequency Signalling between the train and the level crossing controller avoids manual errors
- Automation helps to avoid cost of employing a guard 24x7 at the level crossing

Accidents at level crossings - Statistics

MANNED & UNMANNED LEVEL CROSSINGS IN INDIA

DEATHS DUE TO ACCIDENTS AT LEVEL CROSSINGS
